	MORNING	AFTERNOON
W	<p>Read, Learn, Create June 26th 11:00 a.m.-12:00 p.m. Ages 3 and up Children will hear a story about a local sea animal on the grass outside the Marine Education Center and then do a craft that relates to the animal we just read about.</p>	<p>Feeding June 26th 2:00 p.m.-3:00 p.m. Ages 4 and up Learn about the different types of worms found in the ocean, look for worms in the intertidal zone and create your own worm.</p>
Th	<p>All about Birds! June 27th 8:00 a.m.-9:00 a.m. All ages We will do a small bird walk, looking at all different birds throughout the park. When we get back, for the younger birders, we will do a small project based on the local gull community.</p>	<p>N/A June 27th No programs will be held in the afternoon due to a private birthday party at the center.</p>
Fri	<p>Biodegradation Scavenger Hunt June 28th 9:00 a.m.-10:00 a.m. Students will learn about biodegradation times of common trash items and then engage in an exciting outdoor game/scavenger hunt that relates to biodegradation times.</p>	<p>Weekly harbor clean-up June 28th 3:00 p.m.-4:00 p.m. All Ages Participants will meet at the MEC and help save our seas in a small clean-up around the harbor. All supplies will be supplied</p>
Sat	<p>Plankton Ecology June 29th 11:00 a.m.- 12:00 a.m. Ages 7 and up Learn about different types of marine plankton, perform plankton tows and look for plankton in your samples.</p>	<p>Mussels! June 29th 1:00 p.m.-2:00 p.m. Ages 4 and up There are so many animals that live beneath the surface of our local waterways. Students will go out and see where mussels live!</p>
Su	<p>Seining June 30th 10:00 a.m.-11:00 a.m. Students will go into the water and with a net seine for local fish. Students will get to see new species that aren't in the center's tanks. We will then come back to the center and feed some of those smaller fish to the bigger fish.</p>	<p>All about crustaceans!! June 30th 2:00 p.m.-3:00 p.m. Ages 4 and up Participants will go down to the low tide area and find some of our local as well as invasive crustaceans. Before we go head down, we will do a small lesson on local crustaceans!</p>
