228 Prospect, Thank you for the new tree (Attachment 10)
540 Lawn Terrace, Thank you for New Trees (Attachment 11)

*Old Business

Maintenance, Removal, or Evaluation

Please provide street numbers when reporting tree-related issues

List of stump & tree s for removal from TC (Attachment 12)
412 Rushmore – young tree needs staking, straightening (update)
812 Stuart – Multiple Problems With Tree, Assessment (Attachment 13)
Bub Walker Park, invasive vines need to be removed
Shore Acres Drive Bird Sanctuary, invasive vines need to be removed (Attachment 14)
Waverly @ Fennimore, Dead Tree in Tree Well (Attachment 15)
305 Carrol Ave, Tree for Pruning, Possible Removal (Attachment 16)
405 Fourth Street, Overgrown Tree (Attachment 16-A)

List of Public and Private Tree Removals & Applications (Attachment 17)

Establishing VOM Policy for treatment of trees interfering with sidewalks (Attachment 18)

411 Beach and others (Attachment 18-A)

Hotline for reporting tree law violations -- update

Enforcement Action:

Spring trees have been planted (it's never easy)

Tree Walk in Florence Park

- May 15
- 17 attended (40+ registered)

Tree Damage Caused by ConEd Pruning update

- Research on effects of bad pruning

Tree Law

- Revisions BOT update
- Circulate copies of law & FAQ to arborists and removal companies
- Municipal Administrators Survey, Trees on Private Property (Attachment 19)
- New Rochelle Asking for VOM Tree Law Information to Update Their Law (Attachment 20)
- Question regarding TOM tree law for replacing trees (Attachment 21)

Tree Tags for New Trees

- NYC Parks tree tags (Attachment 22)

Tree Nursery update (Attachment 23)

Clean & Green update

*New Business

Fall trees

- BROW?
- Bub Walker Park to be considered
- Bishop across from Metro North line
- Plan to use bare root trees extensively but not exclusively
- Possible coordination of bare root orders with Village of Larchmont

Library Centennial Tree (Attachment 24)

Request to Plant Trees in ROW -- McMichaels

VOM-wide investigation into feasibility of moving ConEd trees underground

- Power losses from frequent severe storms
- Financial hardship for remote workers
- Damage to street trees
- Aesthetics

Dedicated Tree Committee e-blast list

Heritage Tree List

- Need to prepare list plus nomination procedures

Financial effects of planting trees around private residences (Matt)

Arbortrary Day

- observed May 11
- white dogwood planted at courthouse, replacement tree

*Other Business (*committee members please add any items not otherwise included in the agenda*)

*Calendar Notes

Next meeting June 23, 2022; 7:30 pm in person, location TBA

April 28, 2022 MINUTES

MINUTES OF MEETING OF THE TREE COMMITTEE HELD REMOTELY ON April 28th AT 7:30PM

PRESENT:

Nora Lucas, trustee
Gail Koller, co-chair
Beverley Sherrid, co-chair
Marlene Star
Ellen Axelrod
Sarah Mignano
Jerry Barberio, Village Manager
Deborah Plachta, resident

1. Call to Order: 7:35PM
2. Approval of amended January and March Minutes – Approved
3. Visitors at the meeting – Deborah Plachta

4. **Correspondence:**

130 Stuart Ave - Regarding Implicit Bias in Tree Canopy. Recommended list to be reviewed with consideration for BROW plantings.

702 Prospect - Regarding New Tree Location. Beverley met with home owner and resolved where to plant the new tree. Owner mentioned an opportunity for church to help with Citizen Pruners.

739 Bleecker - Regarding 8 ROW trees marked for removal. Jerry and Gail looked them over and changed the status of five trees from removal to needing pruning. Deborah, the home owner, was pleased.

5. **Old Business:**

a. Trees For Maintenance, Removal, or Evaluation

- i. List of trees requested for removal was reviewed
- ii. Tree in HIP behind 412 Rushmore - Gail to review and update what is needed for staked/propped up tree
- iii. 812 Stuart Avenue – Tree roots disrupting sidewalk. Jerry will inspect site.

- b. Hotline - currently using Dennis Drogan's cell and it is working. Quick response on a neighbor calling regarding a possible removal without a permit on Soundview.
- c. Rye Neck Social Action Research – 18 responses to the survey. Survey investigated residents' perspectives on sustaining urban forest and perspectives on new tree law. Survey data and analysis suggests that it is likely that the Tree Survey respondents are civically engaged, support the Tree Law, and understand the value that trees bring to our community. Suggestion was made for the Tree Committee to continue to find ways to educate and build community interest regarding the benefits of a tree canopy.
- d. Enforcement Action –
 - i. 990 The Parkway – violation issued
 - ii. 1000 The Parkway – needs inspection for potential violation
 - iii. Nautilus Diner – empty tree well – illegal pruning of ROW
- e. VOM Tree Inventory – There will be a free workshop in early May presented by the Bartlett Tree Experts on chipping, pruning etc. for staff, Park and VPW personnel.
- f. BROW and BOT “Tree Scholarships” have been referred to NYS AG for opinion – pending approval
- g. Tree Tags for New Trees – Requirements for tags were discussed. QR codes with facts about the tree and its care. Jason Pinto can help with QR codes.
- h. Tree Damage by Con Ed – Beverley to document photos for support.
- i. Tree Nursery – Establish a program with continuity to help build VOM tree canopy. Potential area for nursery is near the community garden by I-95. A socket pot nursery was suggested for ease in transferring trees when ready for planting. 1/2 caliper diameter trunk trees were suggested as well. TC and Jerry to meet to review property.

6. New Business:

- a. Tree Law revisions –
 - i. Planning Board recommendations are pending with BOT
 - ii. Vote on - Clarification of §318-8 – Guidelines for fallen trees was reviewed and approved by TC for recommendation of BOT.
- b. Spring Trees Inspection – Inspection completed. 36 trees will be delivered and planted very soon.

- c. Fall Trees –
 - i. Bishop across from Metro North – planting of arborvitae will be revisited as well as planting on ROW on lawns.
 - ii. Bare root trees were recommended for many locations.
 - iii. Planning to coordinate tree purchases with Larchmont
- d. McMichael's Boat Yard - request for beautification on the ROW in front of their wall and plant three (3) Hawthorne Winter trees. Jerry to advise on trees to be considered.
- e. Financial Effects of Planting Trees Around Private Residences – pending with Matt
- f. Heritage Tree List –
 - i. 507 Revere Road Tree – historic landmark tree needs pruning
 - ii. List of Heritage tree - list of nominations and procedures for process are needed
- g. Arbor Day Observance - A tree will be planted on May 11th at 10AM in front of the courthouse in honor of Arbor Day

7. **Calendar Notes:**

- a. Clean and Green Day – May 7th at 9:30AM – TC will have a table with brochures and Gail will provide tree seeds to distribute for attendees to plant.
- b. Tree walk in Florence Park - at 1PM on May 15th and rain date on May 22nd.
- c. Next meeting Thursday, May 26th, 2022 at 7:30PM

8. ADJOURNED – 9:14 PM

Attachment – 2
Request for VOM list of Approved Arborists

Good afternoon,

Would it be possible for someone to please send me the list of approved Arborists used by the Village of Mamaroneck. I need an opinion on a tree on my property and cannot find the list on the Village website.

Thank you in advance.

Best,
Alexandra Lawer

Attachment – 3
1402 Franklin Ave, Two Dead Trees

I have not heard back from anyone in regards to the dead trees. Will they be replaced soon?

Please lmk!

Ilisa Crosby <sunpun71@gmail.com>

Tue 5/3/2022 8:08 AM

Jerry,

Thank you for your quick response.

This is much appreciated!

Ilisa

Jerry Barberio

Tue 5/3/2022 7:57 AM

Hi,

I will take a look today. Let me see what we have first before I provide a plan to replace.

Thank you for reaching out to me. I copied our Tree Commission for their information.

I have other trees on Halstead and N. Barry to look at also.

Message:

Jerry,

Back in 2017 I believe or earlier (when the prior owner was living here), the Village planted 3 trees on my property. 2 of the 3 are completely dead and have not flowered at all! I would like

them removed asap and replaced with 2 living, healthy trees.
Many of my neighbors and friends have told the Town about this yet still nothing has been done.
My number is 19176269865 and you now have my email. My property is 1402 Franklin Ave In
Mamaroneck corner of Fourth (said dead trees are on the aide of my house on Fourth St)

Can someone FINALLY help and do the right thing for all?!?!

Ilisa

Attachment 4
702 Prospect, Thank you

Beverley,

Thank you so much for keeping us updated. We appreciate all your help. Can't wait to see the new tree.

Also- we appreciate you asking about the youth group. Hopefully we can make it work for this fall. That is a great idea and would be such a good experience for our youth to learn something new and provide service at the same time.

much thanks,
Amanda

Attachment – 5
629 Fairway Ave, replacement tree request & stump grinding

Hi Sean,

I drove by your house today, sorry it took so long. There will be several more chances for us to talk about what you want & need, we won't be planting until next fall and I always make several trips to the sites.

I saw the stump. It must have been a spectacular tree. I will try to have it ground out before we plant in the fall. Your only wires are near that corner, we would have to put a small (at maturity) tree if we use the same location. On the other hand, you have great space for another large tree along the rest of the Right of Way. We are always looking for large tree opportunities.

I will be in touch in the summer and you can give me your thoughts about location, size, and, within the Village constraints, species. We really do want people to like their trees.

Beverley
Sean Reilly

Hi Beverly,

Thanks for the email.

When you have had chance to stop by the property and identify any potential constraints please let us know. We would like the opportunity to have some input to the extent possible.

Please note the stump has not been removed yet.

Best,

Sean

On May 6, 2022, at 6:36 PM, Beverley Sherrid <bsherrid@optonline.net> wrote:

Hi Sean,

I am co-chair of the Village Tree Committee. We will be planting more trees in the fall and I will add your address to our list of requests. In the meantime, I'll take a look at your property to see whether it is suitable for a tall (at maturity) or small tree. Constraints might include ConEd overhead wires, the size of the Right of Way planting strip, etc. We try to plant native trees as much as possible although it's not an exclusive rule. We generally identify several tall and several small species each time we plant. I can go over the possibilities with you when we have that list.

Has the stump of the old tree been removed yet?

Thanks for getting in touch. If you have any questions, please use my bsherrid@vomny.net address.

Attachment 6 & 7
Sylvan Lane @ Bike Path

Hello-

I wanted to report that a young tree that was planted by the Village of Mamaroneck in our neighborhood is dead. It hasn't sprouted leaves for at least a year. It's located in Orienta neighborhood on the bike path median right by Sylvan Lane and has the green bag at the bottom.

Hopefully I have the right contact information to report this.

Thanks,

Kelly Lerner

Hi,

I hope you are fine.

There is a dry tree in the corner between Sylvan Lane and Orienta Avenue. The tree is a pine.

The tree is on the curbside which belongs to the town.

Can you please come and take it out?

Thank you,

Alice Villarreal

Hi Beverley,

I'm not sure if it was you who came to our house last week or someone else on the committee, but we spoke about the planned planting of a Sweetgum tree at 580 Lawn Ter. My husband and I read up on that tree and would like to put it a request for another one, please. It's a nice tree but we are a bit overwhelmed with our new large lawn (just moved in) and would prefer not to have the additional work of removing fallen seeds (fruit?).

Please let us know if there are other trees available.

Thank you,

Ragnhild and Hassan

Subject: Please advise

Hello, my name is Cecilia Markantonis and I live at 410 Delancey ave.

There is a tree next to my driveway on the property of the Palmer Terrace Apartments . The tree roots have been encroaching on my driveway and lifting the asphalt, such that the damaged asphalt is now nearing my home's foundation. I have contacted the property manager in the past regarding this issue but nothing was done. Can you guide me regarding how to go about getting Palmer Terrace to take care of this situation.

Thank you,

Cecilia M

812 Stuart Multiple Problems With Tree

I was asked to look at this tree and sidewalk at 812 Stuart. The problems it has caused is a collapsing catch basin (with unknown infrastructure problems), a sidewalk slab 7” out of the ground, and an ADA hazard. In addition, we cannot direct the new sidewalk around the tree flare because there is a utilities pole with transformer and street light.

The only choice we have is to remove the tree and eliminate the hazard and repair the catch basin and pipe below ground.

Attachment 14
Vines & Maintenance at Shore Acres Drive Bird Sanctuary

It would be great if you would find out what's allowed. Do you know who actually owns the sanctuary (VOM, Town of Rye, County, NYS, other)? I've been getting complaints about this land for a while and it would be helpful to know who's actually responsible for it.

I completely agree that it shouldn't be cleared like a regular park. It's a wildlife sanctuary, not a soccer field.

The invasive vines should be a separate issue, they are threatening the health of the sanctuary.

And finally, would it be possible to cut back the growth that obstructs the view of the S. Barry intersection? Is this also a question for whoever owns the land?

Thanks for your help. It seems to be a murky problem.
Beverley

Jeff Ahne
Mon 5/23/2022 10:57 AM
Beverly,

I would say no unless maybe DEC/ sanctuary gives us permission. I remember maybe in 2012 we went to go cut trees that were hazardous of the road way I think we got to one tree before we got stopped for working in the sanctuary.

I would have to investigate and ask the proper channels to see if we could possibly do this.

Thank you

If you have any questions please let me know

Hi Jeff,

By "hazardous trees" I meant any at risk of falling on the street or path -- at least I think there's a path. Could those be removed? I know the rest of them are part of the sanctuary: food, habitat, cover.

But, as at Bub Walker park, the vines are killing the trees.

Thanks.
Beverley

Subject: Bird Sanctuary on Shore Acres Drive

Hi Jerry and Jeff,

Clean Up Day had light attendance this year, but the people who participated worked hard.

One of the Shore Acres locations was the Bird Sanctuary along Guion Creek. You may remember that we met there last year with Gail because of complaints by residents near the sanctuary about the invasive vines choking the trees and the possibility that some of the trees are hazardous.

Saturday's volunteers are concerned that the vines need to be removed and the trees need to be inspected. They also discovered that people have been dumping yard waste on this land although we don't have any documentation of who is doing it.

Finally, there is continued concern that the trees and brush at the bend of the road approaching S. Barry are creating visual obstruction and a driving hazard. We would like the Village to clear the lines of sight.

Would it be possible for us to meet there again for another look, and for the Village to take care of these problems?

Thank you.

Beverley

Attachment 15
Waverly @ Fennimore, Dead Tree in ROW Tree Well

Hi all,

This tree is in a tree well and I think it was planted by the business behind it. It has been dead for years now. Can we remove and replace it or we require the business to remove and replace?
What is the protocol for privately planted trees in the ROW?

Best,
Gail

Tue 5/17/2022 8:11 AM

Hi Gail,

Thanks for your note.

The tree is a public tree so someone will need to come.

The other area is close to the intersection but it is really an eyesore. Is there anything I can plant there? If not a tree, can I do a shrub or something small.

Thanks again,
Kim

On May 16, 2022, at 3:07 PM, Koller, Gail <GKoller@vomny.net> wrote:

Hi Kimberly,

I'm so glad you reached out to me with your tree questions! Since this is "official Village of Mamaroneck tree business", I'm replying from my VOM email and cc'ing Beverley Sherrid, co-chair of the Tree Committee.

Question 1: The shoots coming out of the trunk are called "suckers" and you are absolutely correct in thinking they need to be trimmed. Since the suckers are way below the tree's canopy, they tend not to produce much sugar for the tree, but they do take water and nutrients. The best time to remove suckers and prune back branches is in the fall after the tree has dropped its leaves and is dormant. If it is a private tree on your property, you can remove the suckers yourself with pruning shears. If the tree is in the "right-of-way" (ROW), it is a public tree and one of the VOMTC's "Citizen Pruners" can trim it for you.

About your second question, we need to determine if the removed tree was in the ROW. If it was in the ROW, Beverley will assess whether or not a new tree can be planted there. However, judging from the photo, it looks like the tree was very close to the intersection. Trees are now planted at least 20' from an intersection. If you would please "Reply All" with your address, we will look into whether or not it's possible to put in a new tree.

Lastly and in case you're interested, the Village of Mamaroneck periodically offers free, hands-on workshops on how to prune trees (just the lower, easy to reach branches. The dates of the workshops will be posted on the VOM website.

Thanks again for reaching out, Kim!

Best,
Gail

To: Gail Koller <gail.koller18@gmail.com>

Hi Gail,

Hope you had a nice weekend. I have questions for you - in your role on the VOM Tree Committee. Not sure if this is something you can help with, but maybe you can point me in the right direction??

1- I have a big old tree outside my house on Carroll Avenue. There are all of these shoots coming up and I think they need to be trimmed. Is this something that the village does?

2- There is a large space where a neighboring tree was removed a few years ago and it looks terrible. Can I plant something here? Or will the village? Who do I talk to about this?

Pictures below!

Let me know and also let me know next steps on the Tree Nursery project!

Best,
Kimberly

Attachment 16-A
405 Fourth Street, Overgrown Tree

Oh, I think it's one of the elms. They do sprawl, but removing the lower branches to raise the canopy should help a lot.

It's not a good time of year to prune elms. Could you put her off with a promise to work on it this fall? I think a volunteer could accomplish something with it.

And it looks very healthy.

Beverley

Establishing Policy for Treatment of Trees Interfering with Sidewalks

Jerry Barberio
Mon 5/9/2022 2:45 PM
Dear Tree Committee,

As people are headed outdoors again, the issue with tree and sidewalks has come up. We already talked about the tree on Stuart.

This morning, James and I spoke about a similar situation on Beach and as you can see in the photos, Knollwood has several.

I recommend a field trip to make site visits with one or two committee members or I can prepare an agenda item for meeting discussion. It will come down to on-site decisions to remove the trees or risk cutting roots. Since they will all be public trees, we need to make those decisions together.

Thanks. Attached is a photo from Beach.

Subject: Knollwood ave

Jerry,

We received a complaint from a resident on Knollwood ave regarding the majority of the sidewalks being lifted by trees. I walked this area with our mason and we have “flashed” numerous areas to make them safer. However, there are a number of sidewalk slabs with significant damage and/or lift that simply “flashing” can not repair. Could be between 50-70 linear feet of sidewalk that may need replacing due to roots. One issue is a set of roots left underneath a sidewalk from an old tree years ago. This is right next to another lift issue.

Please see a few photos attached to get the idea of the area and let me know how you would like to proceed.

Thanks,

James Barney
Acting General Foreman
Village of Mamaroneck Public Works
(914)351-6380

Hi Jerry,

Years ago, we had a similar lifted sidewalk issue on Prospect between (I believe) Maple and Mt. Pleasant, but possibly between Fenimore and Maple. The sidewalk was completely redone with a long, smaller angle. Cornell mix was put down by the roots to encourage downward growth. I wonder if we can revisit that site just before visiting the Knollwood site.

I'm available next Monday, May 16 until 3:00 PM.

Best,
Gail

Attachment 18-A
411 Beach Avenue

From: James Barney <james.barney@vomny.org>
Sent: Monday, May 9, 2022 1:17 PM
To: Jerry Barberio <jbarberio@vomny.org>; Pablo Ruiz <pruiz@vomny.org>
Subject: 411 Beach Avenue

Jerry,

Please see the attached photos regarding this tree lifting the sidewalk. We would normally attempt to replace the slab but the roots on the opposite side of the tree appear to have already been compromised when the curb was repaired some time ago.

There is significant lift here and “flashing” would create quite a ramp and obstacle.

Please let me know how you would like us to proceed.

Thanks,

Question Regarding TOM Tree Law for Replacing Trees

Thanks, Beverley.

I found the same thing as you. Maybe the arborist was basing his comments on his experience, not on actual language in law. I did find some language in NYC.

Best,
Claire

Beverley Sherrid
Thu 5/12/2022 12:57 PM
Dear Claire,

Thank you for writing.

We read the most recent Town code regarding trees last year while completing the new Village tree law. While the Town does talk about replanting and restoration after private tree removals, the requirements seem to be handled case by case by the its Environmental Planner. Property owners are required to submit plans showing existing trees, including those to be removed, with their sizes and species, and to identify replacement trees with location and species. I don't see any requirements about size.

I'm attaching a copy of the TOM tree code. This version is dated June 22, 2021. I don't know if there have been subsequent amendments. The relevant section for you is 207-6 B. You and your arborist may find it helpful, or may spot something that I missed.

Best wishes,
Beverley Sherrid
Co-Chair, VOM Tree Committee

Ladies,

Sorry to bother you, but I'm trying to confirm the Town of Mamaroneck's requirements for replacing trees that are removed on private property. I know that the Village law specifies 2-2.5" caliber. I tried looking on the Town website but couldn't find specific criteria.

I will likely be making additional comments to the Planning Board regarding the proposed replacement trees at 1010 Orienta Ave. My arborist was here today and he said that the Town of Mamaroneck has a 3" criteria and New York City has a 3-3.5" criteria. I want to make sure his statement was correct before I put it in my comments as a request. (The current planting plan complies with the current Village requirement, but that doesn't mean it is the most appropriate approach for this large property that was clearcut.)

Thanks for your help,
Claire

Attachment 23
Tree Nursery Update

Hi all,

This morning, Jerry, Jeff and I met at Bud Walker Park (located adjacent to the northbound side of I-95 going from Fenimore Road to corner of Grand Street & Plaza Avenue). I have attached several photos of the site. Outlook is being difficult and I will have to attach the rest of the photos to a separate email.

The plan is as follows:

- Part of the footpath will be moved a few feet closer to I-95 to make more space for more baby trees.
- The raised beds in the vegetable garden will be moved and situated between blocks of baby trees.
- The fenced in area will be enlarged.
- Jerry will purchase "pots-in-pots"* in which the trees will grow.
- The trees will be 1/2" DBH and about 6' tall.
- A water line will be hooked up to existing water pipes under Fenimore. Soaker hoses and another kind of hose (I don't recall the name) will go through the nursery and raised vegetable beds.
- We will also plant tree seeds in smaller containers. The seedlings/saplings will be transplanted to progressively larger containers until they will be ready for the pots-in-pots.
- We will establish a sub-committee of the TC of TC members who will care for the trees. This will involve a planting day (more on that below) and watering the trees.
- In September, the VOM will have a celebration to inaugurate the new tree nursery and plant our first batch of baby trees in the pots-in-pots.

*Pots-in-pots is what I am calling a large pot that is halfway down in the ground plus another pot that sits within the first pot. The pot that sits within the first pot will have the soil and tree and will be lifted out of the ground when the tree is ready to be transplanted to its permanent location.

Either the zipe file attached to this email OR the zip file in a separate email also contain photos of 2 trees that have bittersweet vine choking the trees. Jeff will have the vines removed. Another photo or 2 are of an open area adjacent to the bocci court, that can accomodate 3 tall trees.

I welcome any questions or comments. Let's also discuss all of this at our May TC meeting.

Best,
Gail

.....

Hi Jerry and Jeff,

Thank you so much for your time, energy, and thoughtfulness in visiting the Bud Walker Park and planning the steps for creating the VOM Tree Nursery this past Tuesday.

I'm attaching photos of the path that will be moved closer to I-95 and the area adjacent to the bocci court that can accommodate 3 tall trees.

Including myself, we already have 2-5 volunteers for the tree nursery!

Very best regards,
Gail

Hi Amy,

Everyone loves cherries and I understand the extra significance for the library. Personally I am a little worried that the village and especially the park are over planted with cherries, but I'll see what the Tree Committee (we meet this Thursday) and the Village Manager, who is a certified arborist, think about it. Tupeloes are a great tree in a park setting expecially.

I'll check the Rushmore playground site, too, and get back to you about all of it.

Beverley

Hi Beverley -

We'd like to do a Black Tupelo in the park (unless Cherry can be an option, as it is in our logo. If not, no problem).

Let me know if you need anything from us as we continue this project.

Have a great weekend!

Amy

On May 19, 2022, at 2:57 PM, Beverley Sherrid <BSherrid@vomny.net> wrote:

Hi Amy,

I enjoyed meeting you too, and also enjoyed taking a hard look at the gardens around the library. They're lovely,.

Personally I agree with you, a tree in the park would be a much better idea than a potted one on the terrace. I think the Rushmore Ave playground in Harbor Island Park needs a few more trees. It might be an appealing location for a library commemorative tree. If you're interested, I'll check with the Village about planting there. There are lots of other potential park locations, too.

We're encouraging large (at maturity) trees in the parks because they offer so many environmental benefits besides their majesty and beauty. White oaks are a favorite. Black tupelo are another interesting native choice, with beautiful fall color and great wildlife support. They both tolerate flooding.

In case you decide you'd rather go with a tree in a planter on your terrace, a few species that are interesting are serviceberry (a native), Japanese maple, fig, or olive. You should get dwarf specimens.

Trees in planters need to come inside for the winter because their roots aren't insulated by the ground, also many of them are native to warmer climates. They need frequent watering because their soil dries out easily. After several years of growth, their roots become pot bound and they need to be moved to larger containers. I think Japanese bonsai have such long lives because gardeners trim their roots regularly, which I suspect isn't what you have in mind.

Please stay in touch! I love this idea of a centennial tree!

Best wishes,
Beverley
