

COVID-19 and Census 2020 Updated College/University Student Instructions

Census 2020 has a new process to count some college students who have returned home from school. Please follow these new instructions, and pass onto anyone you know who is a college student.

- Students now at home who lived in college-sponsored housing: No need to do anything! Your college will count you – no need to respond. This includes dorms, college apartments, fraternity/sorority (Greek) houses sanctioned by the college, etc.
- **Students who live/lived in non-college-sponsored housing: You need to fill out the census on your own.** Your invitations are being mailed to your off-campus apartment. If you are still in that apartment, please complete the census online or by phone. If you are home and not in your off-campus dwelling to receive your invitation, you need to do the following to be sure you are counted:
 - Go to www.my2020census.gov. Click the blue “Start Questionnaire” button. Click “If you do not have a Census ID, click here” link, and follow directions to get your 12 digit census ID. Then fill out the census. This applies to students who were living in private apartments, off-campus houses, etc.
