**Block 77A**  
**Lot 31**

Dear Mr. Kutzy:

This letter is to certify adequate pressure and supply, ability and willingness is available to serve the above referenced subdivision located on South Barry Avenue, in the Village of Mamaroneck New York 10543

South Barry Avenue is supplied by a 12" water main and reduces down to an 8" water main before entering the property, the water main has an observed static pressure of 118 psi.

This is not to be construed as a guarantee of such pressures under all conditions of flow.

If I could be of any further assistance, you may contact me at (914) 698-3500 ext. 615.

Very truly yours,

WESTCHESTER JOINT WATER WORKS
