Saturday is probably best. That way my husband will be home, too. How about late morning on Saturday, let's say 11:30? Does that work for you?

What time will you get home tomorrow evening? If that's not convenient, perhaps Saturday sometime?

Hi Beverley,

We are in town but I am at my office right now and will not home until a bit later tonight. When would you like talk about the location of the tree? I am happy to give you a call or set up a time for us to discuss. Please let me know what works best for you. My personal email address is [gfarassat@optonline.net](mailto:gfarassat@optonline.net) and cell # is (917) 364-9185.

Best,  
Gwen

Hello Gwen,

I hope you are enjoying the summer. I cannot believe that we are halfway through August!

We are working on our site list for the fall planting. Are you in town at the moment (today is August 19)? I'd like to come over and talk about some concerns with the location of the new tree that you and I talked about last spring.

Hi Gwen,

So sorry you have had to chase this down. Yes, the Village will grind down the stump — I don't know their schedule but they have limited staff, so next winter is not so surprising. Although we're not responsible for removals, the Tree Committee is putting together a list of stumps. It's based on hearing about or spotting one, so this is more or less the way stumps get on the list. I'll make sure you get on.

And yes, the Tree Committee is responsible for planting new trees. We have already ordered the trees for this spring, I'll add you to the next list which I hope will be in the Fall. We don't have to plant in the exact same spot so the stump won't be a problem.

Thanks for getting in touch.

Beverley

Hi Beverly,

This is from Gwen Farassat. I live at 735 The Parkway and believe we are neighbors. I am reaching out to you because I see that you are co-chair of the Village's Tree Committee. The Village recently, without notice, cut down a tree from the front of our property and there is now a stump where the tree used to be. I called the Village's Department of Public Works to find out whether we are responsible for having the stump ground-down or whether the Village does it and also whether the Village will plant a replacement tree or whether that is our responsibility. I was told by the woman in the Department of Public Works who answered my call that the Village will grind down the stump but will not do it until next winter and that I should reach out to Ellen Silver of the Committee for the

Environment regarding tree replacement. I reached out to Ellen about tree replacement and she, in turn, referred me to the Tree Committee.

As the co-chair of the Tree Committee, can you let me know whether the Village will replace the tree it cut down from the front of our property, and if so, when, or if it will not do it, whether we are permitted to plant a new tree in the spot where the old tree was.

Please feel free to respond to this email or to call me at (917) 364-9185.

Thank you,  
Gwen Farassat
