Sorry, there are two attached photo

first on shows a large tree on North Barry, just north of Brook Street on the east side, it is hard to miss. The tree was topped years ago, a bad practice. The top of the trunk is split and if you look at the base there appear to insect damage. I believe the tree qualifies as a Village Tree and should be evaluated and removed if necessary.

The second photo is of a redbud on Carrol avenue, there are three trees badly pruned in a row in front of 401 and 407.

There is also bad pruning at 607 Prospect on Delancey

Subject: Meeting Matters

Dear Member of the Tree Committee,

I have a few comments and questions about the agenda on the website. I hope to make the meeting tonight but there is also a ZBA meeting.

There are two attachments of emails from me about an illegally planted weeping cherry on Jefferson Avenue. I drove by the site yesterday and the tree is still there. I continue to believe that a violation should be issued. If the tree is removed, so can the violation.

The email Andrew Carter says "a tree will be planted this fall on my property." I don't believe this is appropriate. Unless the Village has an agreement about the ownership of the tree the Village should not be paying to plant trees on private property.

I don't understand why there are "negotiations" about where the Village plants trees, I hope this can be explained.

Mamaroneck Town Center - Why does the Village need "permission" to plant trees in the right of way?

I don't understand what the photos attached to "Additions to paved ROW's list" indicate.

Thanks,

Stuart Tiekert
